MASTERTON PRIMARY SCHOOL'S
LATEST COVID-19 INFORMATION
FOR PARENTS

Tuesday 24th August 2021

Good morning

We are planning for what will happen at MPS when we move to Alert Level 3.

Parents and caregivers need to know what this involves for our students.

- Parents / Caregivers do not have to send their children to school – they will continue to have distance education throughout Level 3.
- If all of the adults at home are required to be at a physical workplace and cannot work from home and no other care can be provided during this time we are able to cater for a small number of students on site at MPS.
- Students will only be able to be on site between 8.40am and 2.30pm
- If the rules are the same as last year, at Alert Level 3 we are only able to have very small class “bubbles” of 10 people including staff.
- Parents / Caregivers will not be able to be on the school site before or after school.
- Not all staff are able to be present at school.

If you need your child / children to be on our Alert Level 3 roll at MPS please email me at principal@masterton.school.nz by Friday (the 27th of August) at 12.00 midday so that we can plan accordingly. I will need to know the following;

- Your child’s name and the name of their teacher.
- Your contact details and where you will be working

Regards

Sue Walters

Principal

Masterton Primary School
