

# ROOM 9

## NEWSLETTER TERM 4 2018

Welcome back to all of you in Term 4, 2018. This is our last term together, in what has been a great year for me, and hopefully for your kids too.

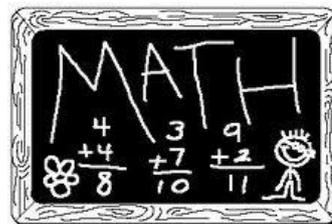

### Integrated Topic

Our integrated topic of study this term is 'Flowering Plants'. We will focus on plant structure and the purpose of flowers. We will be rejuvenating the school bee garden and a note will come home shortly about that.

### Maths Training Circuit

Students will be reviewing their numeracy knowledge and strategies this term, with a focus on addition and subtraction. Currently, we are looking at place value.

### Reports

This term about 15 children are due for reports. If you did not get a report last term, you will need to book an interview later in the term when the notes go home.

### Class Facebook Group

This has run very well again this year! We now have 49 members representing most families in the classroom. At the end of term, the group will be archived but you will get a chance to save photos ... details later in the term on the Facebook page.

### **Syndicate Trip**

Later this term, sometime in Week 8 (early December), all six junior classes are going on an excursion.....details out soon!

### **Health**

This term, with both Guy Fawkes Night and Halloween coming up, we will be looking at safe practises around the use of fireworks, and how to stay safe while trick and treating ☺

*Thank you for taking the time to read this ☺*

*I also want to say that this year has been professionally very satisfying, thanks to your wonderful kids and the support you have given both them and me, specially over the term I was away on sabbatical. I wish you all the best for next year and beyond.*

*Cheers,*

*Debbie Carman*

PS. At the end of term we will spend a couple of weeks looking at the traditional, non-religious aspects of Christmas. If this is at odds with family philosophy and practise, please come and see me so we can look at options.
