MPS Pou (Marker Posts)

A reminder to parents that we have 3 Pou (Marker Posts) that denote a safe place for families and whanau to drop children off at, then students walk/scooter or bike the rest of the way to school. Children can be dropped off or picked up from these points, this is to help with congestion outside the school grounds and to encourage students to travel to and from school in a sustainable manner. The Pou's are on South Road, Short Street and Cockburn Street.

COMPUTERS IN HOMES

Computers in Homes is a programme offered to parents at Masterton Primary School, funded by REAP, to help parents learn how to use a computer and to learn how computers are useful at home. By attending the course you will also be helped to purchase a computer very cheaply if you do not already own one (the cost is \$50 per computer), and to help set up and subsidise the internet for a year if you do not already have the internet on at home.

The 8 week course, held once a week at Reap House for 2.5 hours per week is designed to show you how to use a computer, learn about internet safety and even how to make a C.V. A number of our parents successfully completed the course last term and are now the proud owners of a new computer. They would be happy to share their ideas about how the course was for them.

If you are interested in finding out more information, please contact Karen at our school office.

The first class will be up and running on Tuesday 14th February 2017
 9 30am - 12pm at Ko Te Aroha Childcare Centre
 Johnston Street, Masterton.
