Winter Sports

Winter sport is underway – tips for avoiding injuries

The winter sport season is now underway with lots of our students signed up for a team sport. Injuries are inevitable in any sport but there are ways to avoid getting hurt on the field, turf or court this winter.

Here are some tips for keeping our players injury-free and on the field this season.

- **Get kids to warm up before sports games or exercise – to play better and be kind to young muscles.**
- **Also get them to cool down and stretch afterwards – to avoid getting cramp and muscle injuries.**
- **It's important to drink before, during and after sport – to keep energy levels up during the game.**
- **Check they're wearing a mouthguard, shin pads and other protective gear.**
- **Remind them to watch out for others – on the field or court.**
- **Keep the exercise up in between games – to keep fitness levels up.**
- **For sprains and strains, follow the RICED guidelines: Rest, Ice, Compression, Elevation and get a Diagnosis if needed.**

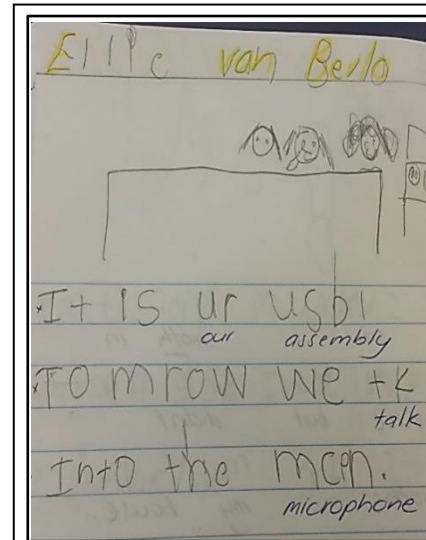

If an injury does happen, call your medical centre to see if they can help. If it's at the weekend, the Wairarapa After Hours service based at Masterton Medical is open 9am-5pm. Contact them on 06 370 0011 or call Healthline on 0800 611 116 for free medical advice 24 hours a day.

Please check your children's uniform to make sure they haven't accidentally put on someone else's. If they have please send the item back to school.
