Important information about Measles – public health advice for all parents

We have received important information from Regional Public Health regarding the measles outbreak and steps we need to take to protect our school community. Please read the information found on the below links.

Link to letter to parents.

www.rph.org.nz/measles

Link to RPH website with fact sheets, posters etc

<http://www.rph.org.nz/measles/>

Link to Ministry of Health –

www.health.govt.nz/measles

If your children are NOT protected from measles start thinking about alternative arrangements if there are confirmed measles at your school. Children who are not protected CANNOT attend school, sports or social events for up to 14 days after their last contact with the infectious person. This date will be extended if there are further cases in the school.

MASTERTON
free

10 in 1 Survival Shoe

The sole

The sole of this amazing shoe/survival kit you have super spider grip, L.E.D. lights to guide you through the night and super cloud foam for comfort. Super spider grip allows you to stick to walls and climb with ease. The L.E.D. lights will turn on when it gets dark and then turn off when it gets light again or you can turn them off by stomping your foot once.

The inside

The inside of the shoe is great for warming up your feet or cooling them down. There are sensors built into the shoe that will activate a fan to cool your feet down or warm them up if your feet are still too cold. You can turn the setting up by wiggling your toes. There is also a thermometer on the outside so you can see the temperature of your feet for yourself.

Survival

Don't worry if you're thirsty because this shoe will turn your sweat into water. With a built-in tuck away filter it will change your dirty sweat into nice fresh water. Scared of predators? Don't worry you can be the bigger one. With the animal voice changer. Just make the noise of the animal that you want to be-and it will make it sound realistic and sounds super loud. Now you don't have to worry about predators because you can be the bigger one. As a bonus there is a built-in compass to help you with directions.

Power

If you are thinking about this being bad for the environment it is not! Its all good. Some of your main concerns, the weight and power. Well it weighs 200 grams and it is 100% solar powered! So now you're good to go for your next camping trip.
